2. Evolution of Digital Marketing

DIGITAL MARKETING (DE103305)

Chapter - 1

Evolution of Digital Marketing

Evolution means the gradual development and change over time. Digital marketing has evolved with the growth of technology, internet and consumer behavior.

Period	Stage	Key Developments	Impact
1990s	The Birth of Digital Marketing	- Internet was introduced. - Websites were created. - Emails used for marketing. - Banner ads were introduced.	- Businesses started their online presence. - Limited reach and high cost.
Early 2000s	Search Engine Era	- Search engines like Google became popular. - SEO (Search Engine Optimization) started. - Pay-per-click (PPC) advertising began.	- Websites got more visibility. - Targeted traffic became possible.
Mid 2000s	Social Media Emergence	- Social media platforms like Facebook, YouTube, Twitter launched. - Businesses started using social media for marketing.	- Brand awareness increased. - Two-way communication with customers began.
2010s	Mobile and Content Era	- Smartphones became widely used. - Mobile apps and mobile ads increased. - Content marketing (blogs, videos, infographics) grew.	- Marketing became mobile-friendly. - Content helped in building trust and engagement.
Late 2010s	Data & Automation Era	- Use of data analytics increased. - Email automation and chatbots introduced. - Influencer marketing grew.	- Personalized marketing became possible. - Better customer experience.
2020s and Beyond	AI, Voice & Future Era	- Artificial Intelligence (AI) used in marketing. - Voice search and smart devices increased. - Video marketing and short videos became popular.	- Highly personalized and real-time marketing. - Better results with automation and AI.

Key Points :

- Digital marketing has changed from simple websites and emails to AI and automation.
- Technology, internet and customer needs drive this evolution.
- Businesses must adopt new tools and trends to stay competitive.

Conclusion :

Digital marketing has come a long way from the 1990s to the present. It continues to evolve with new technologies and customer expectations. Businesses must keep learning and adapting to succeed in the digital world.

OR

Timeline of Digital Marketing Evolution

Period	Major Development	Key Features
Before 1990	Traditional Marketing	Print media, TV, radio, billboards

2000–2005	Search Engine Marketing	SEO, SEM, PPC
2005–2012	Social Media Marketing	Facebook, YouTube, LinkedIn, X
2012–2018	Mobile Marketing	Smartphones, apps, SMS
2018–Present	AI & Data-Driven Marketing	AI, automation, analytics, personalization

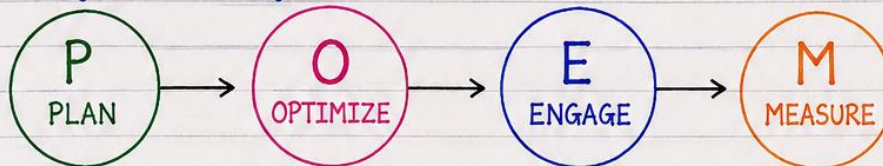

3. Digital Marketing Strategy: P.O.E.M. Framework

DIGITAL MARKETING (DE103305)

Chapter - 1

3. Digital Marketing Strategy: P.O.E.M. Framework

The P.O.E.M. Framework is a simple yet powerful model used to plan and implement an effective digital marketing strategy. It helps marketers to achieve business goals in a systematic way.

★ Success comes from Planning smartly, Optimizing continuously, Engaging meaningfully and Measuring accurately. ★

P - PLAN

- Define business goals and objectives.
- Identify target audience and their needs.
- Conduct market research and competitor analysis.
- Choose the right digital channels.
- Create a content and campaign plan with budget.

A good plan sets the direction for success.

O - OPTIMIZE

- Optimize website, landing pages and content.
- Improve SEO, keywords and ad performance.
- Use A/B testing to find what works best.
- Refine audience targeting and messaging.
- Continuously improve usability and user experience.

Optimization improves performance and ROI.

E - ENGAGE

- Create valuable and relevant content.
- Engage audience through social media, email, blogs, videos and ads.
- Build relationships and trust with customers.
- Encourage interaction, comments and shares.
- Nurture leads through email marketing and automation.

Engagement builds trust and long-term relationships.

M - MEASURE

- Track key metrics and KPIs.
- Use tools like Google Analytics, Search Console, social media insights, etc.
- Analyze data and campaign performance.
- Calculate ROI and measure conversions.
- Generate reports and make data-driven decisions.

Measurement helps to improve and grow better.

In Short :

PLAN carefully → OPTIMIZE continuously → ENGAGE meaningfully
→ MEASURE accurately = Better Results & Business Growth

★ P.O.E.M. is a continuous cycle. After measuring, we again plan, optimize, engage and measure for even better results.

OR

Comparison of Paid, Owned, and Earned Media

Feature	Paid Media	Owned Media	Earned Media
Cost	Paid	Mostly free after setup	Free
Control	High	Complete	Low
Credibility	Medium	High	Very High
Speed of Results	Fast	Moderate	Slow
Audience Reach	High	Moderate	High (viral potential)
Examples	Google Ads, PPC	Website, Blog	Reviews, Shares

4. Skills required in Digital Marketing

6. Paid Advertising (PPC) Skills :

- Run paid campaigns on Google Ads, Facebook Ads, LinkedIn, etc.
- Set budgets, targeting, ad copy and bidding strategies.
- Analyze ROI and optimize campaigns for better results.

7. Data & Tool Proficiency :

- Work with tools like Google Analytics, SEMrush, Ahrefs, HubSpot.
- Understand dashboards, reports and KPIs.
- Use Excel/Sheets for basic data analysis.

8. Creativity & Design Sense :

- Create eye-catching visuals, creatives and ad copies.
- Basic knowledge of design tools like Canva, Photoshop helps.
- Creativity makes content stand out and more shareable.

9. Communication & Soft Skills :

- Communicate ideas clearly in written and verbal form.
- Understand customer needs and collaborate with teams.
- Presentation, storytelling and persuasive skills are important.

A good digital marketer is a learner, a planner, a creator, an analyst and a communicator.

Learn
Analyze
Create
Optimize
Succeed

5. Digital Marketing Plan

A **Digital Marketing Plan** is a simple plan that explains **how a business will promote its products or services using the Internet and digital platforms**. It helps a business reach the right customers, increase sales, and achieve its marketing goals.

DIGITAL MARKETING (DE103305)

Digital Marketing Plan

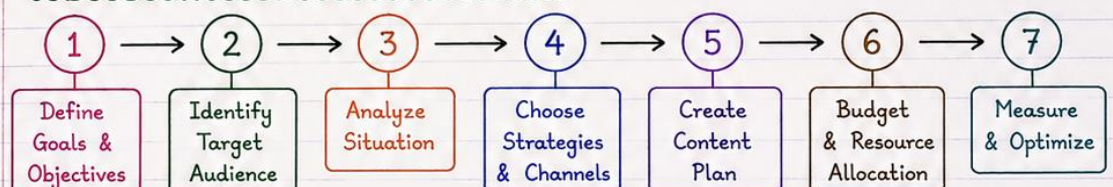

A Digital Marketing Plan is a roadmap that outlines your online marketing goals and the strategies to achieve them using digital channels, tools and tactics.

IMPORTANCE :

- Provides direction and focus.
- Helps in better allocation of time and budget.
- Improves coordination and consistency.
- Enables measurement of results and ROI.

STEPS IN DIGITAL MARKETING PLAN

1. Define Goals & Objectives :

Set clear, specific and measurable goals using SMART framework.
Example - Increase website traffic by 30% in 6 months.

2. Identify Target Audience :

Understand your audience - their age, location, interests, online behavior, pain points and needs.

3. Analyze Situation :

Analyze market trends, competitor strategies, SWOT (Strengths, Weaknesses, Opportunities, Threats) and current performance.

4. Choose Strategies & Channels :

Select the right mix of digital channels such as SEO, Social Media, Email, Content Marketing, PPC, Affiliate Marketing etc. based on your audience.

5. Create Content Plan :

Plan what content to create, for which platform, at what time and how often. Use a content calendar.

6. Budget & Resource Allocation :

Decide the budget for each channel, tools, ads, content creation and manpower. Allocate resources wisely.

7. Measure & Optimize :

Track key performance indicators (KPIs) like traffic, leads, conversions, CTR, bounce rate etc. Analyze results and optimize continuously.

KPIs Examples :

- | | |
|-----------------------|------------------------------|
| ★ Website Traffic | ★ Click Through Rate (CTR) |
| ★ Conversion Rate | ★ Return on Investment (ROI) |
| ★ Cost per Lead (CPL) | ★ Engagement Rate |

Remember :

A good plan today
Leads to better
results tomorrow!

"Plan your work and work your plan." 😊

6. Digital Advertising market in India

The **Digital Advertising Market in India** is growing very fast because more people are using the Internet, smartphones, and social media. Businesses use digital advertising to promote their products and services through websites, search engines, mobile apps, and social media platforms. It is cheaper, faster, and more effective than many traditional advertising methods.

DIGITAL MARKETING (DE103305)

Digital Advertising Market in India

India has become one of the fastest growing digital advertising markets in the world due to increasing internet penetration, smartphone usage and digital transformation.

1. Market Overview

- India is the 2nd largest online market in the world.
- Digital advertising market is growing at a rapid pace every year.
- Shift from traditional media (TV, Print, Radio) to digital platforms.
- Businesses of all sizes are investing in digital ads.

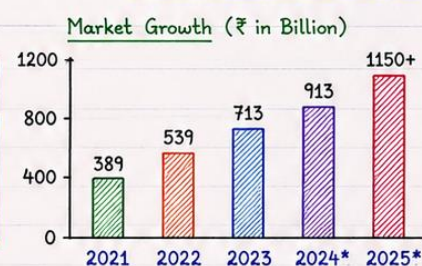

Key Drivers

- ★ Increasing internet users
- ★ Affordable smartphones
- ★ Growth of social media
- ★ Data driven marketing
- ★ E-commerce boom
- ★ Increased ad spending

2. Market Size (India)

Year	2021	2022	2023	2024*	2025* (Projected)
Digital Advertising Market Size (₹ in Billion)	₹389	₹539	₹713	₹913	₹1,150+

* 2024 & 2025 are estimated predictions.

3. Top Digital Advertising Channels in India

- **Search Ads** : Google Ads - High intent, captures active demand.
- **Social Media Ads** : Facebook, Instagram, LinkedIn - Brand building & engagement.
- **Video Ads** : YouTube, OTT platforms - High reach & impact.
- **Display Ads** : Websites & apps - Increase brand visibility.
- **E-commerce Ads** : Amazon, Flipkart - Product promotions & sales.
- **Influencer Marketing** : Collaborations with influencers to reach target audience.

Mobile is the strongest driver of digital ads in India.

4. Industry Wise Spending (Major Sectors)

5. Future Outlook

- More ad spending will move to digital.
- AI, automation & data will improve targeting.
- Short video & OTT ads will grow rapidly.
- Tier 2 & Tier 3 cities will drive the next wave of growth.

6. Conclusion

Digital advertising in India is expanding rapidly with huge opportunities for brands and marketers. The future is digital, mobile-first and data-driven.

Businesses that advertise digitally today, will lead the market tomorrow!

7. Dignified Digital Marketing: Ethics and Data privacy

Dignified Digital Marketing: Ethics and Data privacy

Dignified Digital Marketing means using digital channels responsibly, honestly and respectfully while protecting user data and privacy.

1. Ethics in Digital Marketing

- Honesty and Transparency : Be truthful in ads and promotions. Do not make false claims.
- Respect for Audience : Respect users' time, attention and preferences.
- Avoid Deception : Do not use misleading headlines, fake reviews or hidden information.
- Fairness : Treat all customers fairly and do not discriminate.
- Social Responsibility : Create content that is positive and does not harm society or environment.

* Why Ethics Matters ?

- Builds trust
- Strong brand reputation
- Long term customer loyalty

2. Data Privacy in Digital Marketing

Data privacy means protecting personal information collected from users.

Key Principles :

- Collect Only Necessary Data : Collect only the data you need for a specific purpose.
- Get Consent : Always take clear permission before collecting data.
- Be Transparent : Inform users how their data will be used.
- Data Security : Store data securely and protect it from unauthorized access.
- Right to Opt-out : Allow users to unsubscribe or opt-out of communications.

Best Practices

- Use secure websites (HTTPS)
- Do not share data without permission
- Follow data protection laws (e.g. GDPR, CCPA)
- Regularly update privacy policies

3. Benefits of Ethical and Privacy-focused Marketing

- ✓ Builds customer trust and credibility.
- ✓ Improves brand image and reputation.
- ✓ Ensures legal compliance and avoids penalties.
- ✓ Creates long-term sustainable business growth.

* Remember :
Respecting privacy is not just a rule, it is a responsibility.
