  - Stories
  - Blog links
  - Polls, Q&A, Contests
  - Customer testimonials

### 5. Plan Your Content

- Prepare a content calendar.
- Plan topics, formats, posting dates and platforms.
- Maintain a consistent posting schedule.
- Use scheduling tools (e.g., Meta Business Suite, Hootsuite, Buffer).

### 6. Engage with Your Audience

- Social media is a two-way communication.
- Reply to comments and messages.
- Ask questions, run polls and encourage user participation.
- Show appreciation and build relationships.

### 7. Leverage Paid Promotions

- Use paid ads to reach a wider and targeted audience.
- Platform ads: Facebook Ads, Instagram Ads, LinkedIn Ads, YouTube Ads, Twitter Ads.
- Set budget, target audience, ad objective and measure performance.

### 8. Analyze and Measure Results

- Track performance using analytics tools.
- Key metrics:
  - Reach and Impressions
  - Engagement (Likes, Comments, Shares)
  - Click-Through Rate (CTR)
  - Website Traffic
  - Conversions and ROI
- Use insights to understand what works and what needs improvement.

### 9. Optimize and Improve

- Continuously test and improve your strategy.
- Try new content formats, posting times and ad creatives.
- Learn from data and audience feedback.
- Keep up with trends and platform updates.

### 10. Stay Consistent and Authentic

- Consistency builds trust and brand recognition.
- Be authentic and transparent in your communication.
- Share your brand values and real stories.
- Build a strong brand personality.

#### Checklist for a Better SMM Strategy

- ✓ Clear goals and objectives
- ✓ Understand your target audience
- ✓ Choose the right platforms
- ✓ Create valuable and engaging content
- ✓ Plan content calendar and schedule
- ✓ Engage with your audience
- ✓ Use paid promotions smartly
- ✓ Track results and analyze performance
- ✓ Optimize and keep improving
- ✓ Stay consistent and authentic

#### In Short

A successful Social Media Marketing Strategy is all about planning, engaging, analyzing and improving continuously. When done right, it helps build brand awareness, strong relationships and business growth.

Plan Well + Create Value + Engage Truly + Measure Results  
= Social Media Marketing Success

- 6. Facebook Marketing Assets**
  - a. Facebook Page**
  - b. Business Manager**
  - c. Facebook Ads**

# DIGITAL MARKETING (DE103305)

## Facebook Marketing Assets

Facebook Marketing Assets are the essential tools and resources provided by Facebook to build your brand, manage your presence, create ads, and analyze performance. The three primary assets are:

- Facebook Page
- Business Manager
- Facebook Ads

These assets work together to help businesses reach the right audience, build engagement and achieve marketing goals.

### A. FACEBOOK PAGE

A Facebook Page represents your business, brand, organization, or public figure on Facebook.

#### Key Features:

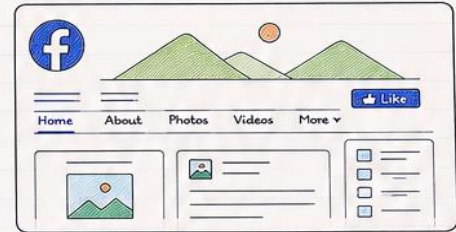

- Public Presence: Visible to anyone on Facebook.
- Customizable Profile: Add profile picture, cover photo, bio, website link, contact details, and action buttons (e.g., Call Now, Send Message, Shop Now).
- Content Sharing: Post updates, images, videos, stories, events, offers, and more.
- Audience Engagement: Like, comment, share, and message your Page.
- Insights: Built-in analytics to track page performance, audience behavior, post reach, and engagement.

#### Benefits

- \* Builds brand identity and credibility.
- \* Helps in community building and customer engagement.
- \* Increases visibility and drives traffic to website or store.

#### Best Practices:

- > Use high-quality images and consistent branding.
- > Post valuable and engaging content regularly.
- > Respond to messages and comments quickly.
- > Use Facebook Insights to understand your audience and improve content.

### B. BUSINESS MANAGER

Facebook Business Manager is a free tool that helps businesses manage their Facebook Pages, ad accounts, people, assets, and permissions in one place.

#### Key Features:

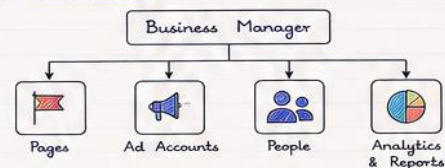

- Centralized Management: Manage multiple Pages, ad accounts, Instagram accounts, and other assets.
- User Roles & Permissions: Assign different roles (Admin, Editor, Analyst, Advertiser) to team members.
- Secure Access: Keeps your business assets secure even if team members change.
- Integration: Works with Facebook Pixel, Catalogs, Apps, and more.
- Reporting: Track ad performance and analyze results across accounts.

#### Benefits

- \* Better control over business assets.
- \* Improved security and data privacy.
- \* Efficient team collaboration.
- \* Scalable for growing businesses.

#### Best Practices:

- > Add only trusted team members.
- > Assign the right role based on responsibilities.
- > Enable two-factor authentication for security.
- > Regularly review and update access permissions.

### C. FACEBOOK ADS

Facebook Ads allow businesses to promote products, services, or content to a highly targeted audience on Facebook, Instagram, Messenger, and Audience Network.

#### Key Features:

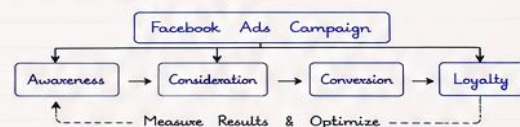

- Targeted Advertising: Target based on demographics, interests, behaviors, location, and custom audiences.
- Ad Formats: Image ads, video ads, carousel ads, collection ads, slideshow ads, and more.
- Campaign Objectives: Choose goals like Awareness, Traffic, Engagement, Leads, App Installs, Conversions, Sales.
- Budget & Bidding: Set daily or lifetime budget and choose bidding strategy.
- Performance Tracking: Monitor ad performance with detailed metrics and reports.

#### Benefits

- \* Reaches the right audience effectively.
- \* Drives traffic, leads, and sales.
- \* Measurable results and high ROI.
- \* Flexible budget options.

#### Best Practices:

- > Define clear goals and target audience.
- > Use eye-catching visuals and strong ad copy.
- > Test different ad sets and creatives (A/B Testing).
- > Monitor performance and optimize regularly.

Facebook Page builds your presence, Business Manager manages your assets and team, and Facebook Ads promote your business to achieve real results.

Right Asset + Right Strategy = Marketing Success

## 7. Understanding the Facebook Algorithm for delivery of ads

# DIGITAL MARKETING (DE103305)

## Understanding the Facebook Algorithm for Delivery of Ads

### 1. What is the Facebook Algorithm?

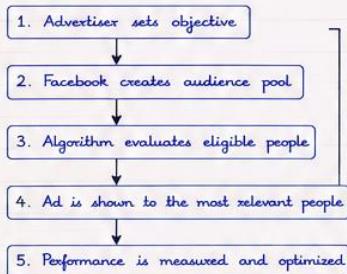

The Facebook algorithm is a set of rules and machine learning models that decide which ads to show to which people, in what order, and how often.

#### Goal of the algorithm:

Show the right ad to the right person at the right time to get the best possible result for both people and advertisers.

### 2. How the Ad Delivery Works

Facebook doesn't show your ad to everyone. It shows to people who are most likely to take the action you want.

### 3. Key Factors the Algorithm Considers

The algorithm predicts how each person will respond to your ad based on signals. Major factors include:

- **Relevance** : How relevant is your ad to the person? (Based on their interests, behavior, past interaction)
- **Quality** : How good is the ad experience? (Ad creative, text, landing page experience)
- **Engagement History** : Has the person engaged with your Page, content or ads before?
- **Conversion Likelihood** : How likely is the person to take the action you want?
- **Ad Interaction** : Clicks, likes, comments, shares, saves, or any other engagement.
- **Negative Feedback** : Hides ad, hides all ads, reports ad, unlike page - these reduce delivery.
- **Recency** : More recent interactions carry more weight.

### 4. Optimization Events (What the Algorithm Optimizes For)

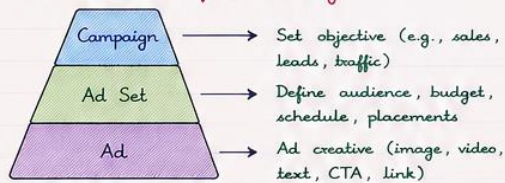

Facebook optimizes your ads to get the most of the action you selected as your campaign objective.

Examples:

- Traffic → Link Clicks
- Engagement → Post Engagement
- Leads → Lead Form Submissions
- Sales → Purchases / Conversions
- Awareness → Reach / Impressions

### 5. The 3 Levels of Ad Delivery

The algorithm works at the Ad Set level, finding the best people in the audience you defined.

### 6. Where Your Ad Can Appear (Placements)

The algorithm delivers your ad across Facebook's family of apps based on where it's likely to perform best.

Facebook Feed

Instagram Feed

Messenger Inbox

Audience Network

Stories (FB/IG)

Advantage+ Placements (automatic placements) usually allow the algorithm to find the best performing places.

### 7. Learning Phase

When you launch a new ad or ad set, Facebook enters the Learning Phase to collect data and find the best audience.

- Usually lasts until you get ~50 optimization events per ad set (may vary by objective).
- During this phase, performance may be unstable.
- Avoid making frequent changes.

#### Tips to exit learning phase faster:

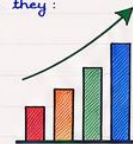

- \* Use clear conversion events
- \* Use a broad enough audience.
- \* Don't change budget, audience or placement too often
- \* Use effective ad creatives

### 8. Why Some Ads Perform Better?

Ads get better delivery and lower cost when they:

- ✓ Are highly relevant to the audience
- ✓ Have engaging and quality creative
- ✓ Get more positive interactions
- ✓ Have a smooth landing page experience.
- ✓ Match the user's intent and need.

### 9. Key Takeaway

The Facebook algorithm is all about relevance, quality and results. It rewards ads that provide good experience to people and help advertisers achieve their goals.

### In Short

The algorithm predicts who is most likely to take your desired action and shows your ad to them. Focus on the right audience, quality ads, clear objective and good user experience to get the best results from your Facebook ads.

Right Audience + Right Message + Right Experience = Successful Ad Delivery

## 8. Facebook Ads Strategy

# DIGITAL MARKETING (DE103305)

## Facebook Ads Strategy

A strong Facebook Ads strategy helps businesses reach the right audience, achieve marketing goals and get the best return on ad spend.

### 1. Set Clear Goals

Decide what you want to achieve with your ads. Align your campaign objective with your business goal.

#### Common Campaign Objectives

- Awareness → Increase brand awareness
- Traffic → Drive traffic to website or app
- Engagement → Get more likes, comments, shares or event responses
- Leads → Generate leads or enquiries
- Sales → Increase conversions or sales
- App Promotion → Get installs & engagement for app

### 2. Know Your Audience

The right audience targeting ensures your ads reach people who are most likely to take action.

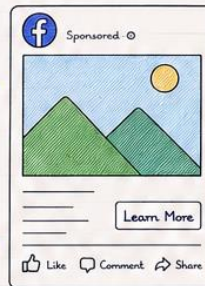

- Demographics : Age, gender, location, language
- Interests : Pages liked, hobbies, activities
- Behaviors : Purchase behavior, device usage
- Custom Audiences : Customer list, website visitors, engaged users
- Lookalike Audiences : Find new people similar to your best customers

### 3. Create Compelling Ad Content

Your ad creative should grab attention and encourage action.

- Use eye-catching images or videos
- Write a clear, benefit-driven headline
- Keep the message short and simple
- Highlight unique selling points
- Use strong Call-To-Action (CTA)  
e.g. Shop Now, Learn More, Sign Up

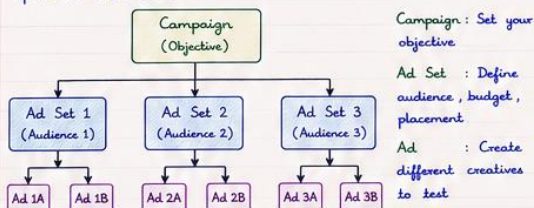

### 4. Choose the Right Ad Format

Select the ad format that best fits your goal and audience.

- Image Ads : Simple and effective
- Video Ads : Great for storytelling
- Carousel Ads : Showcase multiple products or features
- Collection Ads : Drive discovery and sales with immersive experience
- Lead Ads : Collect leads without leaving Facebook

### 5. Plan Your Campaign Structure

A well-structured campaign makes it easier to test, optimize and scale.

### 6. Set Budget & Bidding Strategy

Decide how much you want to spend and how Facebook will deliver your ads.

- Budget Options : Daily Budget or Lifetime Budget
- Bidding Options : Lowest Cost (recommended for most campaigns), Cost Cap, Bid Cap
- Start small, test, then scale what works.

### 7. Ad Placements

Choose where your ads will appear.

- Automatic Placements (Recommended) - Facebook finds the best placements for you.
- Manual Placements - Select specific placements like Facebook Feed, Instagram Feed, Stories, Marketplace, Audience Network, etc.

### 8. Monitor, Test & Optimize

Constant monitoring and optimization improve results and reduce costs.

- Track key metrics : CTR, CPC, CPM, Conversions, ROI
- A/B Test your creatives, audience, placements
- Pause underperforming ads
- Scale winning ads gradually.

#### In Short

Set Goals → Know Audience → Create Content → Choose Format → Structure Campaign → Set Budget → Choose Placement → Monitor & Optimize

★ Right Strategy + Right Audience + Right Creative = Successful Facebook Ads ★

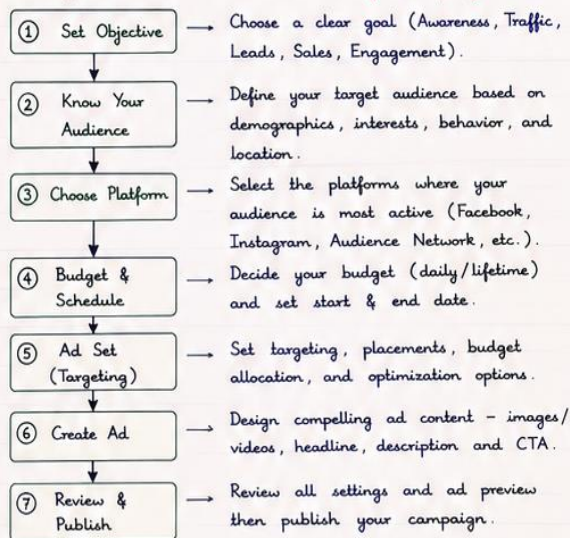

## 9. Creating & optimizing advertising campaigns

### DIGITAL MARKETING (DE103305)

#### Creating & Optimizing Advertising Campaigns

A well-planned advertising campaign helps businesses reach the right audience, achieve goals and get the best return on ad spend. The process involves creating the campaign and continuously optimizing it for better results.

##### 1. Steps to Create an Advertising Campaign

##### 2. Key Elements of a Successful Campaign

- Clear Objective
- Relevant Audience Targeting
- Compelling Ad Creative
- Strong Call-To-Action (CTA)
- Proper Budget & Bidding Strategy
- Continuous Monitoring & Optimization

##### 3. Ad Creative Best Practices

Use high-quality images or videos.

Write short, clear and benefit-driven text.

Highlight unique value or offer.

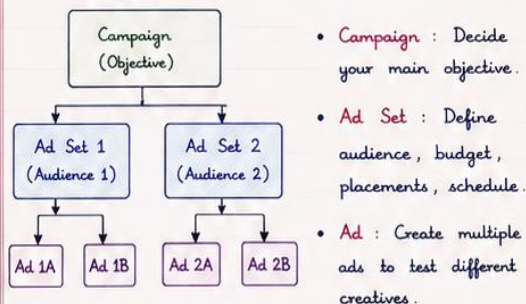

Use a strong CTA (Shop Now, Learn More, Sign Up, etc.).

Make sure your ad looks good on mobile.

##### 4. Campaign Structure (Example)

##### 5. Optimizing Advertising Campaigns

Optimization helps improve performance and reduce cost.

- Monitor Key Metrics regularly.
- Pause underperforming ads.
- Test different creatives, headlines, audiences (A/B Testing).
- Adjust budget to high-performing ad sets.
- Refine audience targeting based on results.
- Improve landing page experience.
- Use Facebook Pixel data for better optimization.

##### 6. Key Metrics to Track

| Metric                    | What it Indicates                         |
|---------------------------|-------------------------------------------|
| Reach                     | Number of unique people who saw your ad.  |
| Impressions               | Total number of times your ad was shown.  |
| CTR (Click-Through Rate)  | Percentage of people who clicked your ad. |
| CPC (Cost Per Click)      | Average cost for each click.              |
| Conversions               | Number of desired actions completed.      |
| CPA (Cost Per Action)     | Cost for each conversion.                 |
| ROAS (Return on Ad Spend) | Revenue generated for every ₹ spent.      |

##### 7. Optimization Checklist

- ☒ Is my objective clearly defined?
- ☒ Is my audience targeting accurate?
- ☒ Are my ads visually appealing and relevant?
- ☒ Is my CTA clear and strong?
- ☒ Have I tested multiple variations?
- ☒ Am I tracking the right metrics?
- ☒ Have I optimized my budget allocation?
- ☒ Is my landing page user-friendly?

##### 8. Tips for Better Results

- \* Start with a small budget and scale gradually.
- \* Focus on one goal at a time.
- \* Keep your ads updated and fresh.
- \* Use data to make decisions.
- \* Retarget interested users.
- \* Provide value in every ad.

##### Remember :

Create → Monitor → Optimize  
= Better Performance & Higher ROI

## 10. Facebook Insights and pixel

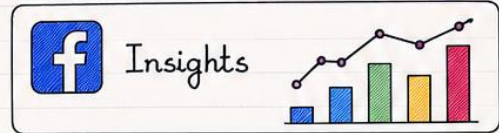

# DIGITAL MARKETING (DE103305)

## Facebook Insights and Pixel

Facebook Insights and Pixel are powerful tools provided by Facebook to measure performance, understand audience behavior and optimize advertising campaigns for better results.

### 1. Facebook Insights

Facebook Insights is a free analytics tool that helps you understand how your Page, posts and audience are performing.

#### Key Metrics in Facebook Insights

- Overview : Summary of Page performance.
- Reach : Number of unique people who saw your content.
- Impressions : Total number of times your content was displayed.
- Engagement : Likes, comments, shares, clicks and other interactions.
- Page Likes : New likes, unlikes and total likes over time.
- Demographics : Age, gender and location of your audience.
- Post Performance : How individual posts are performing.
- Videos : Views, average watch time and audience retention.

#### Benefits of Facebook Insights

- Helps in understanding your audience better.
- Tracks content performance.
- Helps to identify what works and what doesn't.
- Supports data-driven decisions.
- Improves engagement and reach.

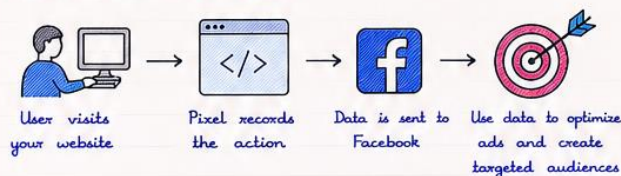

#### Insights Overview (Example)

| Overview     | Reach<br>12,345 ↑15%  | Engagement<br>2,345 ↑10%  |
|--------------|-----------------------|---------------------------|
| Results      |                       |                           |
| Content      |                       |                           |
| Audience     | Page Likes<br>678 ↑8% | Link Clicks<br>1,234 ↑12% |
| Benchmarking |                       |                           |

### 2. Facebook Pixel

Facebook Pixel is a piece of code that you place on your website. It helps you track visitor actions, measure the effectiveness of your ads and build targeted audiences for remarketing.

#### How Facebook Pixel Works

#### Events that can be tracked

- PageView
- ViewContent
- AddToCart
- InitiateCheckout
- Purchase
- Lead
- CompleteRegistration
- Other custom events

These events help you understand user behavior and measure conversions.

#### Pixel Code Example (placed before </head> tag)

```
<!-- Facebook Pixel Code -->
<script>
!function(f,b,e,v,n,t,s)
{if(!f.fbq)return;n=f.fbq=function(){n.callMethod?
n.callMethod.apply(n,arguments):n.queue.push(arguments)};
if(!f._fbq)f._fbq=n;n.push=n;n.loaded=!0;n.version='2.0';
n.queue=[];t=b.createElement(e);t.async=!0;
t.src=v;s=b.getElementsByTagName(e)[0];
s.parentNode.insertBefore(t,s)}(window,document,'script',
'https://connect.facebook.net/en_US/fbevents.js');
fbq('init','YOUR_PIXEL_ID');
fbq('track','PageView');
</script>
<script> 
</script>
<!-- End Facebook Pixel Code -->
```

Replace  
YOUR\_PIXEL\_ID  
with your  
actual Pixel ID.

#### Benefits of Facebook Pixel

- Measure ad conversions accurately.
- Build custom audiences based on website behavior.
- Retarget visitors who didn't take action.
- Optimize ads for better performance.
- Create Lookalike audiences to reach new people similar to your customers.
- Track return on ad spend (ROAS).

#### Types of Audiences You Can Create

- Website Custom Audiences (People who visited your website)
- Engagement Custom Audiences (People who interacted with your content)
- Customer List Audiences (Email, phone numbers, etc.)
- Lookalike Audiences (Reach new people similar to your best customers)

**Remember :** Use Facebook Insights to understand your audience and content performance.  
Use Facebook Pixel to track actions, measure results and optimize your ads.
